A Horse With No Name

Intro

Verse 1
```
      Em                    F#m
On the first part of the journey
      Em                    F#m
I was looking at all the life
      Em                    F#m
There were plants and birds and rocks and things
      Em                    F#m
There were sand and hills and rings
      Em                    F#m
The first thing I met was a fly with a buzz
      Em                    F#m
And the sky with no clouds
      Em                    F#m
The heat was hot and the ground was dry
      Em                    F#m
But the air was full of sound
```

Chorus
```
      Em                         F#m
I've been through the desert on a horse with no name
      Em                    F#m
It felt good to be out of the rain
      Em                    F#m
In the desert you can remember your name
      Em                    F#m
'Cause there ain't no one for to give you no pain
```

```
      Em                    F#m
La, la, la lala la la la, la, la
      Em                    F#m
La, la, la lala la la la, la, la
```

Verse 2

```
      Em                          F#m
After two days in the desert sun
      Em                          F#m
My skin began to turn red
      Em                          F#m
After three days in the desert fun
      Em                          F#m
I was looking at a river bed
      Em                          F#m
And the story it told of a river that flowed
      Em                          F#m
Made me sad to think it was dead
```

Chorus

```
        Em                        F#m
You see I've been through the desert on a horse with no
name
      Em                          F#m
It felt good to be out of the rain
      Em                          F#m
In the desert you can remember your name
      Em                          F#m
'Cause there ain't no one for to give you no pain

        Em                        F#m
La, la, la lala la la la, la, la
      Em                          F#m
La, la, la lala la la la, la, la
```

Verse 3

```
      Em                          F#m
After nine days I let the horse run free
      Em                          F#m
'Cause the desert had turned to sea
      Em                          F#m
There were plants and birds and rocks and things
      Em                          F#m
There were sand and hills and rings
      Em                          F#m
The ocean is a desert with its life underground
```

```
        Em                      F#m
And a perfect disguise above
        Em                      F#m
Under the cities lies a heart made of ground
        Em                      F#m
But the humans will give no love
```

Chorus

```
        Em                      F#m
You see, I've been through the desert on a horse with no
name
        Em                      F#m
It felt good to be out of the rain
        Em                      F#m
In the desert you can remember your name
        Em                      F#m
'Cause there ain't no one for to give you no pain

        Em                      F#m
La, la, la lala la la la, la, la
        Em                      F#m
La, la, la lala la la la, la, la
        Em                      F#m
La, la, la lala la la la, la, la
        Em                      F#m
La, la, la lala la la la, la, la

        Em                      F#m
La, la, la lala la la la, la, la
        Em                      F#m
La, la, la lala la la la, la, la
        Em                      F#m
La, la, la lala la la la, la, la
        Em                      F#m
La, la, la lala la la la, la, la
```
